## *Back to the Future Homecoming*

On September, 11 2015, the Walthill Student Council sponsored its "Back To The Future" themed homecoming to one hundred and one students. The festivities kicked off with a parade earlier that day that ended with this year's coronation. At 3pm, the Walthill football team played an amazing game, and showed true character when losing to the Falcons by just three points. At 7pm, the dance kicked off, with music from Mr. Tunes. When the dance ended, at 10pm, the students stayed and enjoyed themselves at the After Party that went to midnight. The After Party's attendance was ninety nine students, showing that the student body would rather stay and have fun in an alcohol/drug free environment, than partake in such activities that follow many Homecomings. In the end, this year was a huge success, and the Student Council would like to thank all those involved in setting it up and chaperoning, as well as, the following for their contributions:

- Blackbird Bend/Lucky 77 Casino: monetary donation
- Omaha Tribe Alcohol Program: monetary donation (D.J.)
- Circle T Feedlot: monetary donation
- Carl T. Curtis: monetary donation
- Charter West Bank: monetary/food donation
- Chesterman's Bottling Company: beverage donation

**Thanks again everyone for making this year's Homecoming an amazing one!

## "Independent Thinkers!" by Ms. Fernau, 6th Grade Math/Science

Let no one say that Walthill has no science minded independent thinkers . . . here's proof! I had two girls with all their work done Friday, September 18th, so they had Khan Academy time or Cool Math etc. Instead they spotted the "Snap Circuits, Jr." kit I had purchased with Science Curriculum money a few years back. Luckily, I had AA batteries to put in it and OFF they went. They, on their own, connected the circuits and got the first item to work.

Well, they weren't stopping there!!! No, no, not these gals, they got busy and tried everything else. Eventually, other students joined to watch them. Through trial and error the girls succeeded in getting ALL the circuit items to work, buzz, chime or fly!

The students are: Janissa WhiteWater, Lily Phillips and Cheryl Stabler. The other members of the class were busy getting their work done or I'm sure they would have been there, too!

Just had to share with you all! A wonderful positive that I was able to witness!
